

Metz, 25th of April 2019

Press release

Alter G7 Metz : We citizens require a drastic change in favor of social and environmental justice

Seven state leaders should not decide upon the fate of humanity therefore we as citizens, political parties, NGO and associative groups have gathered to organize the alter G7 in Metz on May 3rd , 4th and 5th 2019

Government's lack of actions especially among the seven richest countries on earth, the senseless race for profit of the highest financial sphere and of the multinationals are leading humanity to its extinction.

Global warming, loss of biodiversity, massive pollution, depletion of natural resources, access to drinking water and safe food, share of the resources are among the most important challenges our civilization is facing.

No more talks, it is now time for action! For social and environmental justice!
There are 7 of them but seven billion of us.

We have decided to debate urgent measures in order to come out of the environmental dead end without waiting for yet another international summit conclusion

These proposals, which are a summary of the claims and demands coming from citizens, political parties and associative groups, a vast variety of people which constitutes the strength of the alter G7, will be presented during a press conference on Friday 3rd of May at 4 pm at Club de la presse à Metz – 5 Place de la comédie, METZ, France.

We are expecting people to get massively involved in the various events taking place during the G7. Let us get together in order to show our determination and our desire for a change.

There are 7 of them but seven billion of us.
